

Supporting Your Local Fire Companies

As a member of the Congressional Fire Services Caucus, I have pushed for increased federal funding for local fire companies and for tax incentives for volunteer firefighters. We must do more to reward the brave men and women across our Nation who risk their lives to save others as firefighters. There is something you can do to help this effort. Many of our local fire companies are in great need of volunteers. Below is the contact information for the fire companies in the 19th Congressional District. Please consider volunteering your time to help keep our community safe.
